

Paula Cobzaru

I am very passionate about software development.
Due to the courses in software development and my experience in accounting and finance, I have acquired technical knowledge and soft skills, as well as practical and business skills.
I am specialized in Java, HDBC&Hybernate, Spring MVC, Thymeleaf, Bootstrap, Jasper Reports, WordPress and now in Data Science and Deep Learning with Python and JavaScript.

Work experience

Junior software developer
Learning SS SRL, Iasi, Romania - Freelancer Jan 2021 - present

I am using a range of languages and frameworks in order to build projects together with a Senior software developer. I am doing my apprenticeship, helping him in to hiw own prejects.

- I am working on different projects
- Writing WordPress applications
- Learning how to use Java or Python for Data Science, JavaScript

Receptionist
Grand Hotel Scarborough, United Kingdom Nov 2021 - Nov 2022

I worked as a Receptionist at the biggest hotel from Europe built in 1883, that hosted Queen Elisabeth, Winston Churchill, other known artists and stars of the UK and of the world.

- Give information and help to the potential and current customers of the hotel
- Making the required forms for the clients’ accomodations

CEO and Founder
Expertcont PC SRL, Iasi, Romania Oct 2012 - Sept 2020

I am a chartered accountant with more than 15 years of experience. My theoretical and practical knowledge come from the university and courses for being a charterd accountant, from my previous work places and most importantly, from self learning (that is one of my passion in all the areas I work).

- Consultancy in accounting, tax, finance, cash-flows
- Providing team management for punctual delivery of workload
- Tens of accounting expertise for the Justice court and Police
- Tens of clients in accountancy, HR and business analysis

Financial manager
Euromarket WWE SRL, Iasi, Romania Jan 2007 - Sept 2012

I worked as a Financial manager for a Romanian-Cypriot company specialised in water treatment. My top management was both in Romania and Cyprus, so I had to use English as the second language at work.

- Accountancy, tax and financial supervisor
- One-to-one mentoring to a team of accountants
- Undertaking management analysis for the mother company from Cyprus
- Different financial analysis, like cash-flows, revenues and cost reports

Financial manager
Etta Auto SRL, Iasi, Romania Aug 2002 - Dec 2006

I worked as a Financial manager for a company with more activities and branches in Iasi and Vaslui.

- Supervising the accounting, tax and financial department
- Providing team management for punctual delivery of workload
- Main duties to supervise: payrolls, assets, suppliers and customer accounts

Education and training

Student
IT Factory

May 2022 - present

I am studying on-line JavaScript with HTML5 and CSS3, in a class of only 9 people, in order to get skills in the front-end software development area and become a Junior web developer. In the end I will have a portofolio on GitHub and take a final exam with the National Authority for Qualifications.

Student
Simplilearn in association with Perdue University USA and IBM

October 2021 - present

Post Graduate Program in AI and Machine Learning, which means an on-line very intensive course lasting one year, studying Data Science, Machine Learning, Deep Learning, Reinforcement Learning and Artificial Intelligence with Python, in order to become an engineer in either of these fields.

Software Developer
Software Development Academy, Romania

October 2021 - present

Online Java Programming Bootcamp, studying java as the main programming language, structured databases with MySQL Database or frameworks as JDBC, Hibernate, Thymeleaf, Angular. For the final project Online Invoicing I studied by myself BootStrap for the front-end design and JasperReports for printing the reports of the application. This app is on my GitHub account and was aimed to be designed for the final exam with the National Authority for Qualifications.

Postgraduate
University Alexandru Ioan Cuza, Iasi, Romania

October 2005 - July 2007

Postgraduate (MBA) in international affairs and economy (English and Romanian).

Bachelor Degree
University Alexandru Ioan Cuza - Elitec, Iasi, Romania

October 1997 - July 2001

Specializing in accountancy/finance and informatics for economics.

Other courses and specializations

2006 - present

- Association of Chartered Certified Accountants - charter accountant
- Training Cariere SRL - professional coach
- Udemy - on-line course in Python
